

Cordless rebar-tier RT-34

With its simple and robust design, it is particularly suitable for small construction sites. It is the ideal tool for contractors who want to reduce by 4 the time spent fastening rebars.

Multi-purpose, it can also be used to fasten ducts to reinforcements.

It is equipped with a 9-stage tightening torque adjustment, very simple to use, which will allow, depending on the case, to tighten more or less the tie.

The RT-34 is sold with 2 Li-ion batteries without memory effect, which ensures permanent autonomy (around 3000 ties per charge).

Capacity : 8 to 34 mm

Easy installation of the coil

Avantages :

- 4 times faster than a manual tie
- Improve working conditions
- Very simple use with one hand
- Very light (less than 1,5 Kg)
- Avoid wrist problems

Model	Weight	Size (mm)	Time / Tie	Capacity	Tie per charge	Tie per coil	Battery Li-ion	Charging time
RT-34	1,4 kg	255 x 65 x 280	+ / -1 sec	Ø 8 à 34 mm (Combination 2 Ø)	3000	185	10,8 V – 4,4 Ah	90 mn
